PROYECTO

ALGUNA CIUDAD DE UN PAÍS HISPANOHABLANTE LATINOAMERICANO O DEL CARIBE

This project is worth **50 points**. 20-30 minute presentation. **50% late (pass due date)**

25 points Presentation:

Make a Power Point presentation, of at **least 20 worth images** of ***the city*** and ***surroundings*** (what you are going to talk about) **and maximum of 30**, showing real images of the city as it looks currently. Do not include (in writing) the information you are going to talk about, talk directly to the audience, making this presentation exciting and interesting, showing knowledge of the city. Make sure you show all aspects of the **city so we know why it is worth to go there or not**, and what *would it be the best time to go*. Also include in your presentation why did you choose this city? *Plan on spending a minute or two by slide.*

25 points Information:

The information must be accurate and current.

The main question is why we would like to go there and of course the **location of the city in the country** (*close to a beach, or in the mountains, etc.*)

Make believe we all are going to go on a fieldtrip (prepare us to go)

Talk about this information while you show the pictures. Talk about **the city** and surroundings* hotels, transportation, down town, neighborhoods, streets, way of life, economy, politics, weather, cultural events, music, sculptures, museums, beaches, rivers, lakes, parks, malls, food, restaurants, etc. Some questions you should keep in mind are: how the people live, where do they go on weekends, what are their typical dishes, what customs do they have, what are the main attractions, what are the festivals they have and when, what places people go, what things people do, what are the main

attractions of the city. *What are the surroundings: physical characteristics (rivers, valleys, mountains, beaches, etc.)

Presentation - Presentación 25 points	You have a very poor presentation. Do not look at the audience. Read all the time from slides (there should be no writing!)	You have a poor power point presentation, reading all of it (from notes)	You still have to read during your presentation.	You have an excellent presentation. No reading necessary. There is no writing in your slides. Presentation is exciting, interesting, fluid and engaging!
Information - Información 25 points	Little aspects of the city, or no current information. Graphs and writing in your slides instead of pictures or 5-6 pictures of the city. You are missing the key points about the city.	Few (10) pictures illustrating the city. Lacks important information. You have part of the information required but still missing interesting facts. Very poor.	Few pictures illustrating the city (15). Some information about the city is included; the audience cannot get an idea of the whole city.	Enough quantity of pictures illustrating the city (20-30). All information required is included. You bring to the class all the information required and more!
